SUMMARY

MCA student specializing in Security Essentials with hands-on experience in Full Stack Development, React JS, Java programming, cloud computing, and backend development concepts. Skilled in building responsive web applications, REST-based workflows, and scalable software solutions. Internship experience at ASMD Technologies and Tech Mahindra with exposure to Agile methodologies, debugging, cloud platforms, and collaborative software development.

SKILLS SUMMARY

Programming Languages: Java, Python, JavaScript, C.
Frontend Development: React JS, HTML5, CSS3, Bootstrap, Angular JS, Responsive Web Design.
Backend & Databases: Firebase, MySQL, REST API Concepts, Authentication, Database Management.
Cloud & DevOps: Microsoft Azure Fundamentals, AWS Fundamentals, Cloud Computing Concepts, DevOps Basics.
Software Engineering: Object-Oriented Programming (OOP), Data Structures, Client-Server Architecture, Agile Methodology, SDLC, Debugging, Testing.
Machine Learning & Analytics: Linear Regression, Random Forest, Data Visualization, Predictive Analytics.
Tools & Technologies: Git, GitHub, VS Code, Firebase Console.
Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability, Analytical Thinking.
Languages: English, Hindi, Kannada, Konkani, Marathi.

WORK EXPERIENCE

- ASMD Technologies Pvt. Ltd., Dharwad — Software Developer Intern** Apr 2024 – Jul 2024
 - Developed a responsive full-stack employment portal using modern web technologies and Firebase backend services.
 - Implemented dynamic job search functionality, secure authentication mechanisms, and user-friendly interfaces.
 - Collaborated with Agile development teams during design, testing, debugging, and deployment phases.
 - Optimized application performance and improved cross-browser compatibility for enhanced user experience.
 - Managed Firebase collections and streamlined backend data handling workflows for efficient data retrieval.
- Tech Mahindra, Bengaluru — Trainee Support Intern** Feb 2025 – May 2026
 - Worked on the Ernst & Young (EY) virtual project with exposure to cloud computing and DevOps practices.
 - Gained hands-on understanding of Microsoft Azure services, deployment workflows, and troubleshooting methodologies.
 - Participated in Agile software development activities and cross-functional team collaborations.
 - Assisted in technical documentation, system support activities, and workflow optimization tasks.
 - Enhanced analytical thinking, debugging capabilities, and problem-solving skills in enterprise environments.

EDUCATION

- PES University** Bengaluru, Karnataka
Master of Computer Applications (MCA) – Security Essentials 2024 – 2026
- JSS SMI UG & PG Studies** Dharwad, Karnataka
Bachelor of Computer Applications (BCA) 2021 – 2024

PROJECTS

- Jobster – Job Portal Website** | *HTML, CSS, JavaScript, Firebase*
 - Developed a responsive job portal web application enabling job seekers to search and apply for opportunities efficiently.
 - Implemented secure user authentication and dynamic job search functionality using Firebase services.
 - Designed interactive user interfaces and optimized application responsiveness across multiple devices and browsers.
 - Managed backend data storage, retrieval, and user records through Firebase database integration.
- International Study Cost Predictor** | *Python, Machine Learning*
 - Developed a machine learning application to estimate international education expenses using historical data.
 - Implemented Linear Regression and Random Forest algorithms achieving approximately 92 prediction accuracy.
 - Performed data preprocessing, feature engineering, and model evaluation to improve prediction performance.
 - Utilized data visualization techniques to present insights and improve result interpretability.

Smart Energy-Aware Microservice Recovery | *AI, Cloud Computing*

- Designed an AI-driven predictive recovery framework for cloud-based microservice architectures.
- Focused on improving service availability, fault tolerance, and energy-efficient resource utilization.
- Applied predictive analytics concepts to identify failures and automate recovery mechanisms.
- Strengthened understanding of scalable cloud systems, distributed computing, and backend workflows.

CERTIFICATIONS

ET-AI Hackathon 2026 Semi-Finalist – Selected as a Semi-Finalist in the ET-AI Hackathon 2026 conducted by *The Economic Times*, recognized for developing innovative AI-based solutions and competing among high-performing teams nationwide.

Advanced Diploma in Computer Engineering – Kenonics Institute of Computer Science

Tech Mahindra EY Virtual Experience Program – Tech Mahindra

LANGUAGES

- **English** – Professional Proficiency
- **Hindi** – Professional Proficiency
- **Kannada** – Native Proficiency
- **Konkani** – Native Proficiency
- **Marathi** – Professional Proficiency
